

Extended warranty

ASUS Warranty Extension Service Package is a worry-free solution which provides you with extended warranty services after your ASUS product's standard warranty expires.

- For those customers who purchase optional extended warranty with their device, Computex will activate your ASUS Warranty Extension Package warranty on your behalf.
- The ASUS Warranty and Extension Package is based on a “collect and return” service. ASUS will arrange for a faulty device to be collected, repaired and dispatched back to the customer or school, if relevant.
- **The ASUS Warranty and Extension Package does not cover software, battery, peripherals, free accessories such as a mouse or bag, and customer-induced or accidental damage e.g. cracked screens.**
- The ASUS Warranty Extension Packages for Notebooks/ Commercial Notebooks/ Gaming Notebooks can be purchased anytime within the standard warranty period. ASUS Warranty Extension Packages for any other ASUS product lines such as Desktops, All-In-Ones, Components, etc. should be purchased within 180 days of product Date of Purchase.
- Subject to the Activation being completed, your Product warranty period will automatically be extended from your Product's original warranty end date.
- Except for the change to the warranty period, all other terms will remain the same as the ASUS standard warranty.
- This service package includes international / local support (depending on the extended service package purchased). Service is provided following the local standard and service policy. Please refer to the Warranty and Support section of your warranty card for more information.
